*Jorling joins CET board of directors*

The Center for Ecological Technology (CET) is pleased to announce that Tom Jorling has joined its Board of Directors. Jorling is currently a visiting distinguished professor of environmental studies at the Center for Environmental Studies at Williams College . He lives with his wife Sandy in Williamstown.

Jorling has previously served as the director of Environmental Studies at Williams College; as minority counsel to the U.S. Senate Committee for Public Works; and he has worked as assistant administrator of the U.S. Environmental Protection Agency. He also previously headed New York State's Department of Environmental Conservation and spent a decade as vice-president for environmental affairs at International Paper. He retired in 2004.

CET has served as a local and regional resource for practical environmental solutions for 30 years. Its work focuses on energy efficiency, renewable energy, waste management and environmental education. In the last year alone, CET directly assisted more than 11,000 individuals through one-on-one assistance, workshops, classroom presentations and more. For more information about CET, visit [www.cetonline.org](http://www.cetonline.org).
